HELPING OUR HEALTHCARE CLIENTS

Robust, reliable and cost effective information management solutions for the NHS

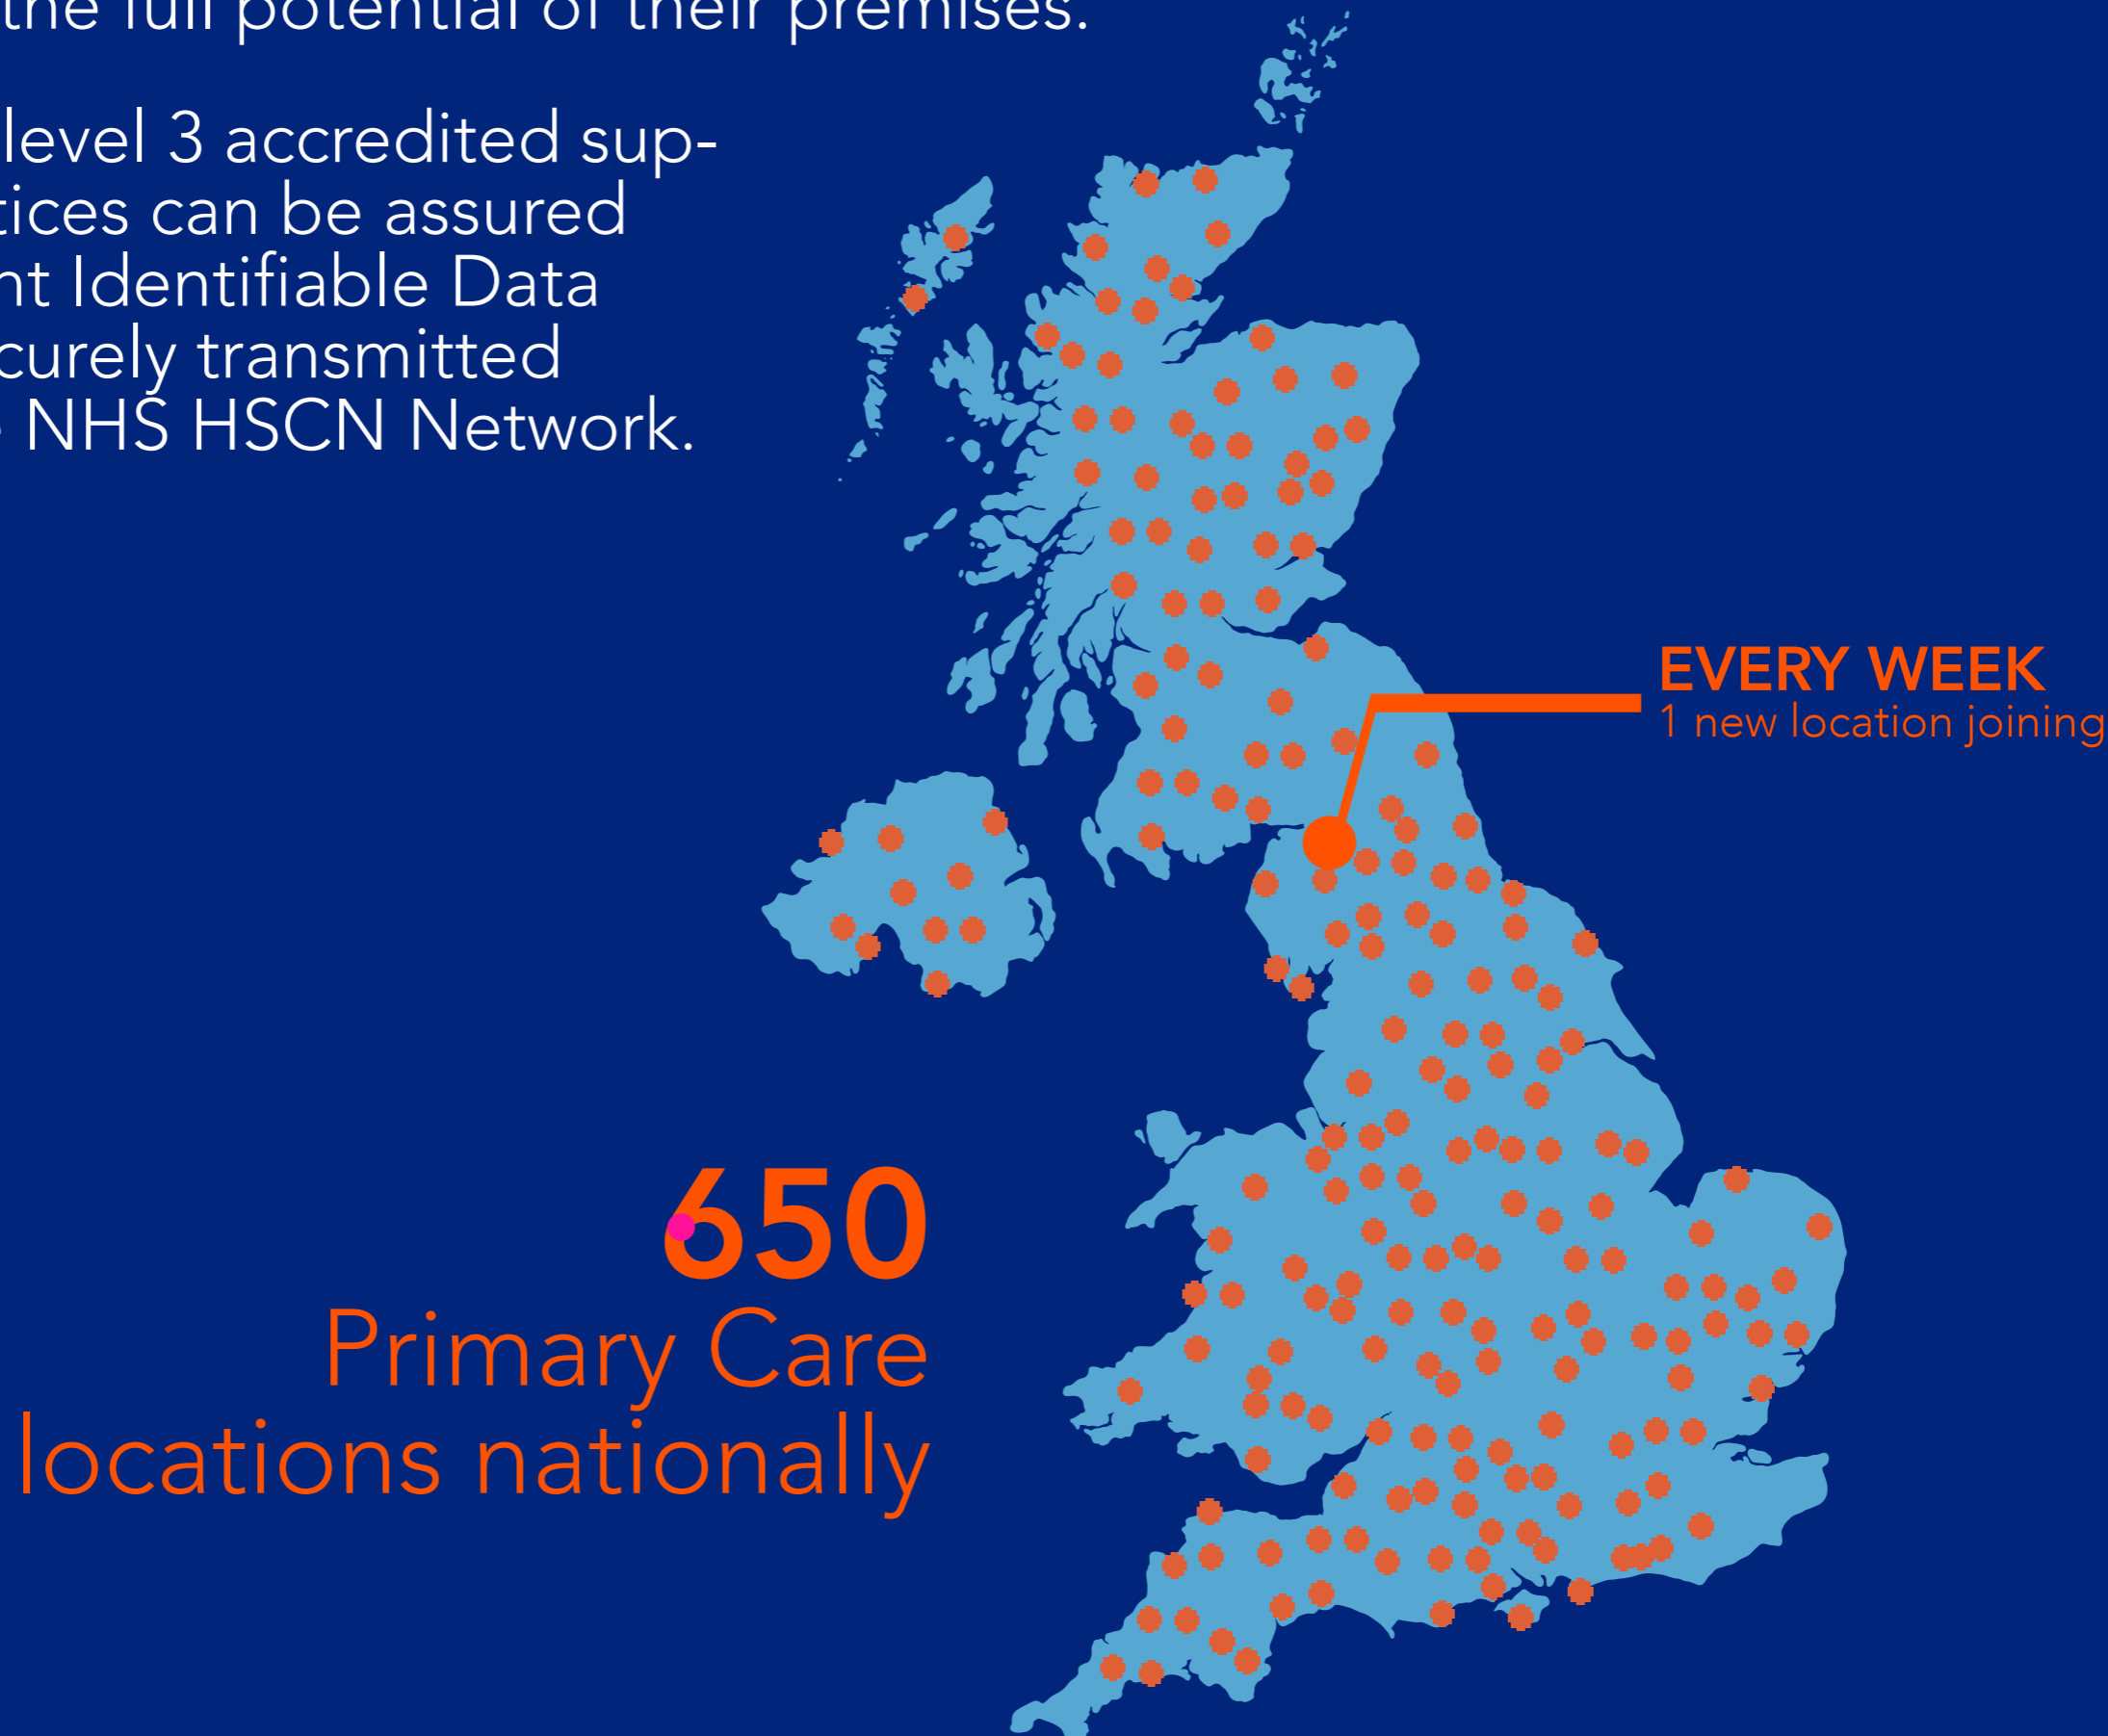

As a long-term partner to multiple healthcare institutions, including private hospitals, NHS Trusts and GP surgeries, we have developed robust, reliable and cost effective records management solutions.

OASIS solution

OASIS noteSpace™ service is trusted by GP practices nationally for the secure off-site storage and electronic management of Lloyd George and A4 records. The service is proven to quickly and easily enable practices to realise the full potential of their premises.

As an ITK level 3 accredited supplier practices can be assured that Patient Identifiable Data (PID) is securely transmitted across the NHS HSCN Network.
